PRESS COMMUNIQUE -- FOR IMMEDIATE RELEASE

**MICHAEL CHAMAS LAUNCHES WEBSITE...THE REAL STORY BEHIND THE PICTURE
Maxime Bernier, January 15, 2008 Conservative Party Fund Raising
Event**

Montreal, Quebec:

Today Mr. Michael Chamas, released his personal website with the real story behind the picture of him and Maxime Bernier and the conservative party. He is quoted stating, "I hope that Canadians consider who they will vote for in the upcoming election. Find the truth, analyze it and then decide. It's your life, your family and your country at risk.

We as Canadians need to understand what happens to us as citizens when the government decides to launch a campaign against individuals they consider to be politically motivated to permanently silence them and to keep them from their political aspirations.

We have a lot of examples recently with the Maher Arar case; where Human Rights of Citizens are violated and with immunity politicians can stand in our Parliament defame Canadian citizens with political ambition, without verifying facts and understanding the damage that they cause. We are expected to pay for this treatment with our tax dollars?"

"Please read my website blog and consider what I disclose carefully, before you cast your vote for your future. We should take back control of our future with accountable government that recognizes our unique cultural differences but more importantly reflects the True Canadian Promise that we historically have believed in."
